Kale I am pleased that my posting of Hugo Franz has been helpful to you. I got the information from a book written about Rozel county, KS. My husband was married to Glenna Smith who is a relative of Glenna's. I was just checking Ancestry.com to see what information might be there. A lady by the name of Kimberly Stonier has posted some information, but she doesn't show an email address. Right now we are in the process of unpacking and as soon as I can locate the book I will let you know when and who published the book. I don't know if the attachment will be of any help to you. Let me know if I can be of any further assistance.

Hugo Edward is my great grandfather. I think you were also able to post
some information on his siblings, including John Adam (Jr).

Could you possibly share the source of your information? I'd be very
interested in obtaining a similar version of your source, as there might
be more information for me in it.

The information you've provided online has already been very helpful,
and your efforts are very much appreciated.

With best regards,
Kale Franz
